

Once we install node automatically set in path variables-

```
C:\Users\pavan>node --version
v16.17.0
C:\Users\pavan>
```

```
C:\Users\pavan>npm --version
8.15.0

C:\Users\pavan>
```

Specs - every test is specification file.

Note-

After running cypress install command, you wont see all folders.

You will see node modules, package json.

To see e2e, use npx cypress open

Then select e2e testing

Click next

Select browser

Then you should be able to see in vs code

If still you dont see e2e run this command-

mkdir -p cypress/e2e
